

Call to users to define the future of the Copernicus Services for Water

During the upcoming [Key Stakeholders Workshop](#), we will discuss the main outcomes of the **Roadmap for the future of the Copernicus Services**.

The workshop sessions will be organised around the following topics:

- Current state of play of the Copernicus Programme for water. Bottlenecks and opportunities.
- Priority Actions for Copernicus for Water
- Scenarios for Copernicus for Water

Key Stakeholders Workshop

27-28 September

Scotland House Brussels

[Provisional agenda](#)

All the registered participants will get the latest version of the Roadmap.
